## **Teachers Prepared**

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

#### THIS PAGE INCLUDES:

- >> Teachers Prepared by Subject Area
- >> Teachers Prepared by Academic Major

## **Teachers Prepared by Subject Area**

Please provide the number of teachers prepared by subject area for academic year 2019-20.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

#### What are CIP Codes?

No teachers prepared in academic year 2019-20

If your program has no teachers prepared, check the box above and leave the table below blank (or clear responses already entered).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<a href="https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55">https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55</a>).

### **Teachers Prepared by Academic Major**

Please provide the number of teachers prepared by academic major for academic year 2019-20. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. (§205(b)(1)(H))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education—Chemistry" category.

#### What are CIP Codes?

SECTION I: PROGRAM INFORMATION

## **Program Assurances**

Respond to the following assurances. Note: Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. (§205(a)(1)(A)(iii); §206(b))

PAG		

>> Program Assurances

Program Assurances
1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teabased on past hiring and recruitment trends.
Yes No
2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.
• Yes • No
3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.
Yes No Program does not prepare special education teachers
4. Prospective general education teachers are prepared to provide instruction to students with disabilities.
Yes No
5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.
• Yes • No
6. Prospective general education teachers are prepared to provide instruction to students from low-income families.
• Yes • No
7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.
Yes No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

There is a deliberate effort to place teacher candidates in classrooms that include special-needs students. The professional program is designed to track student field/clinical placement to assure a variety of school setting experiences, assuring they have a diversified experience in low and high needs areas, suburban and urban settings. Candidates are required to indicate on lesson plans how they will provide appropriate accommodations for these students in collaboration with their classroom supervisors. Recruitment efforts identify high needs areas to prospective students.

#### **Annual Goals: Mathematics**

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

### **Assessment Pass Rates**

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. (§205(a)(1)(B))

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

## **Summary Pass Rates**

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. (§205(a)(1)(B))

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

SECTION V: USE OF TECHNOLOGY

## **Use of Technology**

On this page, review the questions regarding your program's use of technology. If you submitted an IPRC last year, this section is pre-loaded from your prior year's report; please review and update as necessary.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

>> <u>Use (</u>	of Technology		

## **Use of Technology**

1.	Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that
	your teacher preparation program would be able to provide evidence upon request. (§205(a)(1)(F))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction
  - Yes
    - No
- b. use technology effectively to collect data to improve teaching and learning
  - Ye
    - No
- c. use technology effectively to manage data to improve teaching and learning

- 2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Technology is a cross-cutting theme which must be addressed in all teacher preparation coursework. Students are required to create lesson plans that contain student-centered technology use. Additionally, teacher education candidates create an electronic showcase portfolio. Technology standards (ISTE) are addressed in all coursework. Professional development for both faculty and students is regularly offered to maintain technology standards.

SECTION VI: TEACHER TRAINING

## **Teacher Training**

Provide the following information about your teacher preparation program. (§205(a)(1)(G))

THIS PAGE INCLUDES:

#### **Teacher Training**

- 1. Provide a description of the activities that prepare general education teachers to:
  - a. Teach students with disabilities effectively

ULM undergraduate programs include modules in all pedagogy and methodology coursework that include strategies and interventions for students with special needs, including students who are limited English proficient.

Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the Individuals with Disabilities
 Education Act.

The course that focuses exclusively on special needs is SPED 2002 (Survey of Education of Children with Special Needs) This course familiarizes students with characteristics of disabilities and accommodation strategies. Students learn about RTI and the referral/IEP process and the role(s) they will play in the process. At the same time students take SPED 2002, they are also enrolled in ELED 3040 (Balanced Literacy) or READ 4019 (Reading for Secondary) or CURR 3002 (Inclusive Instruction for Secondary). These courses and instructors work collaboratively with our PDS to design field experiences in which students provide interventions to students and have opportunities to plan and implement tiered lessons for both special learners and LEP students. Throughout the program, ULM students have opportunities to team teach and to teach individually, preparing them for future interactions with special education inclusion teachers. During student teaching, students have the opportunity to participate with classroom teachers in all collaborative/consultative activities with parents, including IEP meetings. An addition to the curriculum designed to better equip our students to deal with challenging student behavior is SPED 4007 (Differentiated Instruction).

c. Effectively teach students who are limited English proficient.

The courses described above include strategies for effectively teaching students who are limited English proficient.

2. Does your program prepare special education teachers?

Yes

No

If yes, provide a description of the activities that prepare special education teachers to:

- a. Teach students with disabilities effectively
- b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

#### **Contextual Information**

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

The teacher education programs at ULM offer multiple unique opportunities for the students. All students are assigned a personal adviser upon entry to the program and receive readily available assistance in navigating their program. Undergraduates begin their school-based experiences during their first years in the program and participate in increasingly responsible supervised teaching assignments throughout their coursework. Principals have indicated that ULM students walk into the classroom on their first day knowing how to teach. Classes are small, promoting collaboration among students and providing accessibility to mentoring faculty. The program uses a cohort model that is unique compared to programs at other institutions.
